

**ELEVATE
EVERY
STEP**

**PINNACLE
FLOORS**

Elevate Every Step

A carpet is more than just a floor covering – it serves as an anchor. For some, a carpet carries symbolic meaning and roots in rich cultural heritage. For others, a carpet offers an added layer of safety, comfort and utility; and for some, a carpet is a creative way of personalizing a space as an extension of their signature style.

Whether you walk to that important meeting at the office, a special get-together with them, a much needed holiday with loved ones at a hotel, an entertaining night with buddies at the movies, experiencing spirituality at a place of worship or simply retire to your own home, it's time to roll out the carpet and Elevate Every Step.

One of the largest carpet manufacturers in Asia, Classic Carpets has been a special part of people's lives for more than three decades as they walk with us throughout our journey. We are the only company in Asia (outside China) so far to have the capabilities of ColorPoint, the most advanced tufting machine in the world. The machine can work with multiple colors, diverse pile heights, and a plethora of textures and tip-sheared effects, all seamlessly integrated into the carpet design.

Our Marquee Clients

Classic Carpets not only stays on top of the latest market trends, but we set them, too. In addition to our expansive portfolio of loyal clients, we also work closely with distributors, wholesalers and importers

who supply our products to retail chains, supermarket chains, e-commerce stores, diverse retailers and more across the world and across various sectors.

South East Asian Heritage with Contemporary, Global Perspective

Headquartered in Indonesia, Classic Carpets' vast array of floor coverings are rooted in tasteful contemporary aesthetics that are visually appealing and ideal for both residential and commercial spaces. Harnessing the power of path-breaking technology, our carpets are crafted with extraordinary finesse, which is why clients from all over the globe have turned to us for more than three decades.

Classic Carpets became the first carpet in Indonesia to be awarded with ISO 9002 certification. Now with over six textures to select from, as well as 500 SKUs and bespoke offerings created with sustainable materials, we don't just design, we inspire.

We transform your space with optimized floor coverings that are durable, beautiful and unique.

Our team strategically invests in cutting-edge technology to optimise our production capabilities, resulting in more than 6,000,000 meters of carpets being churned out yearly. The facilities are equipped with machines imported from USA, Japan and Germany to further enhance our range, finesse our quality and minimise our carbon footprint. We operate over 16 tufting machines that roll out customized products for clients around the world.

We are the only company in Asia (outside China) so far to have the capabilities of ColorPoint, the most advanced tufting machine in the world.

OUR CAPABILITIES

We are equipped with state-of-the-art machinery from around the world, including:

Colorpoint Machine

The Colorpoint tufting machine can produce carpets with multiple colors, multiple pile heights, and a variety of textures and tip-sheared effects with a wide range of patterns.

Digital Printing Machine

Cutting-edge digital carpet printer: High-resolution, quick-drying, and versatile for vivid designs on various carpet materials.

Tufting Machines

Efficient carpet tufting machines imported from the USA, Japan, UK, and Germany: Create intricate patterns, textures, and durable carpets, optimizing

Artificial Grass Machine

Advanced artificial grass machine: Effortlessly produces quality synthetic carpets, with precision and speed, perfect for diverse landscaping needs.

In addition, we also have:

- Yarn extrusion technology from Germany
- An air entangling machine from the USA
- Yarn Cabling machinery from Volkmann Germany
- Yarn Heat setting expertise from Superba France
- Tufting machines imported from the USA, Japan, UK, and Germany
- Fully automated Chromojet printing machines from Zimmer Austria
- A European PVC tile production line
- The Modra M-Tuft sampling machine from Australia, complemented by Ned-graphics design software for custom requirements
- Our robotic cutting machine, capable of crafting intricate shapes such as trapeziums and hexagons with unparalleled precision

Archipelago

Unity in Diversity!

Indonesia boasts an intricate tapestry of over 300 ethnic groups, each exuding distinct cultural values. Each province has its own rich heritage of religions, cuisines, languages, dialects, music and dance, making the nation a captivating blend of contrasts. This amalgamation symbolizes "Unity in Diversity," a testament to Indonesia's remarkable fusion of divergent cultures and ideologies. Our Archipelago range is an ode to Indonesia.
